 (FOR KEY SEE REVERSE)

1. The time taken to load a ship in the port of Gdynia is steadily increasing . The WOP (Military Border Guard) has increased the thoroughness with which cargoes about to be loaded are inspected. Each crate where a man might be concealed is opened by the WOP and searched just before it is loaded on board ship. This procedure takes a great deal of time. When the suggestion was made that this inspection should be carried out in the warehouse prior to the loading, the WOP refused to agree. 25X1
2. The delay in loading is also due to the shortage of dockers. Gdynia alone is short a few thousand dockers. Moreover, dockers who are dissatisfied with the present method of remuneration neglect their work and carry it out in a shipshod fashion.
